

REMARKS

Reconsideration and allowance of the present patent application based on the following remarks are respectfully requested.

By this Amendment, a new title has been added, and claims 1 and 20 have been amended. Claims 22 and 26 have been cancelled without prejudice or disclaimer to the subject matter therein.

Claim 1 has been amended to include the features of claim 26, which is considered allowable matter. Thus, by this Amendment, claim 1 is considered allowable. Claims 2-19 and 23-24 depend from claim 1, and thus, are also considered allowable. Claim 20 has been amended to include the features of claim 22, which is considered allowable matter. Thus, by this Amendment, claim 20 is also considered allowable. Claims 21 and 25 depend from claim 20, and, therefore, are also considered allowable.

It is noted on page 2 of the Office Action that claims 23 and 25 were objected to because of the term "SiGa." However, Applicants contend this is an appropriate term in the art, and, therefore, need not be corrected. The interpretation of the element as "SiGe" is incorrect and was not considered in the remarks.

After entry of this Amendment, claims 1-21 and 23-25 will be pending in this application.
